PROJECT TITLE (question #1)

Enter the name of the project as you wish it to appear on record. Be concise and descriptive. Spell out any acronyms used. This title will appear in reports seen by people who do not know the final proposal well and will not know the purpose of the project except by the title.

APPLICANT ORGANIZATION/ JURISDICTION (question #2)

Enter the full legal name of the jurisdiction and/or library applying for funds. For schools, this should be the name of the school and the district/ entity to which it belongs. List project partners in question #6.

APPLICANT CONTACT (question #4)

Enter the name and contact information for the individual preparing this application or another person who may be contacted for information about it. This may not be the representative of the jurisdiction legally authorized to apply for and/or receive funds (i.e. the person who signs the certification on the last page).

CLIENT POPULATION (question #5)

Enter the estimated number of people served by this specific project, not necessarily the same as the total population served by the library jurisdiction.

LSTA AMOUNT (question #7)

Enter the amount of LSTA funds requested for the project *for one year only*. Use whole dollar figures. Do not include in-kind or other funds.

BUDGET SUMMARY (question #10)

See directions for *Budget* (question #23) below.

CLIENT NEEDS (question #11)

The clients are the people who will be directly served by the project, which should be based on their needs. In this section, describe how you determined the needs your project will address.

PROJECT GOALS (question #12)

Broad in scope and long-range, the project goal answers the question “What does the library hope to achieve?” In this section, explain how your project goal relates to the [State Plan](#) goal. Your project should be limited to one or two goals. Please note that the new *California Statewide Plan for the Use of LSTA Funds, 2007/08 to 2011/12* will not be completed and approved by the Institute of Museum and Library Services (IMLS) until after 2007/08 grants are awarded, for the purposes of your final proposals, please continue to use the five goals as outlined in the current Statewide Plan.

OBJECTIVES (question #13)

Specific and measurable, attainable and realistic, objectives are statements of desired accomplishments. Include the quantity of services, products and/or programs you expect to provide and projected completion date for each objective. Most projects will have a limited number of objectives for each goal; it is acceptable to have only one objective if the project scope is limited. Please note that you must show the amount of LSTA funding requested for each objective in question #23.

An example of an objective is:

- 50 community volunteers will be recruited and trained to tutor 30 inmate adult learners in the county jail during 10 sessions and will attain 50% success.

PERSONNEL (question #16)

For each position to work on the project, whether funded by LSTA or not, please state the job title, classification (if different from job title), and full or part time status. List salaried staff paid by LSTA, contract staff paid by LSTA, in-kind staff provided to the project, staff provided via other funds, and volunteers.

Please attach a job description for each LSTA-funded position. Give a brief description of the duties and qualifications of each person not funded by LSTA.

EVALUATION (question #20)

Evaluation is the means by which you and others can verify a project's success and value by assessing the extent to which the objectives have been achieved. In this section, state what elements of the project will be evaluated and what methods of evaluation will be used (e.g., user surveys, focus groups, circulation data, staff interviews).

CONTINUATION (question #21)

LSTA is a limited-term funding source. It must not be counted upon for continuing operations and usually funds projects of one to three years duration only. A factor in evaluating each application is evidence of clear and realistic consideration that the project services will be continued after the LSTA grant funding ends. Continuation may be achieved by incorporating all or most services funded by LSTA into the library's budget, by finding other funding sources, or by other means. Note that, if the project objectives are completed within the LSTA grant period, it may be acceptable for project activities to be discontinued.

SHARING RESULTS (question #22)

Applicants are strongly encouraged to share the results of their projects with the larger library community and other interested groups through workshop or conference presentations, articles or publications, wider dissemination of project handbooks or manuals, etc.

BUDGET (question #23)

LSTA Funds Requested. In the columns along the top of the page, space is provided for up to three project objectives if needed. Name each column with a key word (for example, "Outreach", Collections," and "Publicity"). **If your project has more than three objectives listed in question #13, or if you need additional rows in the budget table, please contact Kevin Saunders at the State Library, ksaunders@library.ca.gov, (916) 651-6509.**

e. **Subtotal** Enter the total of rows a through d.

Include new library funds if they are budgeted specifically for this project. Do not list in-kind contributions here.

i. ***In-kind Contributions To Project*** Enter an estimate of in-kind contributions from applicant and all other partners in the project. In-kind contributions, to the extent that they are devoted exclusively to the project, may include staff time, library materials and equipment, building space and utilities, and other operating costs.

j. **Total Project** Enter totals of rows g – i.

CERTIFICATION (question #25)

Provide an original signature on the first copy of the final proposal. The person authorized to apply for federal funds on behalf of the applicant jurisdiction should sign and date the final proposal. This may be the library director or someone else, such as a contracts/grants officer, depending on local rules. Final proposal authors below the rank of director must secure approval for a final proposal from their library administration.

The authorized official of a recipient organization must approve the submission of the final proposal, be willing and able to administer extramural funds, and (if a grant is received) must accept responsibility for undertaking and supporting the project. If a grant is awarded, this person will receive the award letter and all subsequent official correspondence and warrants. The award packet will include other necessary documents for signature including a nondiscrimination clause addendum and a civil rights certificate.
